

Rubric for SLO #3: Critical Thinking

*Students will evaluate evidence and context as a means of analyzing complex issues.*

	<b>Exceeds Expectations (3)</b>	<b>Meets Expectations (2)</b>	<b>Below Expectations (1)</b>	<b>Not Applicable (0)</b>
Evidence	Conclusions/observations drawn from evidence are logical and informed.	Conclusions/observations seem informed, but may not consider all evidence presented.	Conclusions do not rely on a consideration of the evidence presented.	Artifact does not align with the rubric and/or artifact cannot be scored.
Context	Conclusions demonstrate a sophisticated understanding of the context in which evidence was created (to potentially include bias and the cultural context of the evidence).	Conclusions demonstrate an understanding of the context in which evidence was created (to potentially include bias and the cultural context of the evidence).	Conclusions do not reflect any understanding of the context in which the evidence was created.	Artifact does not align with the rubric and/or artifact cannot be scored.
